You expect to find one in every amusement park, from Kiddieland to Disneyland. But you would be a little surprised to see a MERRY-GO-ROUND on your high school campus. Yet high school life is pretty much like a MERRY-GO-ROUND. The school buildings, the staff, the routine, like the mounts on the MERRY-GO-ROUND itself, are pretty much the same from year to year. But the ride, each time, is different; not because the MERRY-GO-ROUND has changed, but because you, the rider, have changed.

What we try to show in this EL CABALLERO is the swirling motion, the constant activity, the up-and-down, round-and-round excitement, and above all, the riders, on the SAINT - MARY'S - GO - ROUND, this time around.

It is the first time aboard the Saint Mary's Go-Round for the freshmen. It is a new experience. The admission price is initiation. But after the initial dizziness wears off, it can get to be kind of fun.

FROSH INITIATION

Once every turn, Initiation comes around again. Like on a Merry-Go-Round, the horses are the same but the riders are different. To those who have been aboard before, it looks almost the same each year, but to those who are on it, now, it is a new experience; not always pleasant, possibly, but unforgettable anyway.

The Sophomores

The Sophomores have been through it all before. After all, if you've seen one merry-go-round, you've seen them all, right? But even Sophomores don't know exactly what's around the next bend; and that is what keeps them going.

Jackie!
Well it's like old times. Back together and its been so much fun "ducky". Loads of fun always.

BAND

Some people think that all high school bands sound alike. But then not everyone has an ear. Some who do (at the ASU Band Day), judged that this Saint Mary's Band deserved a SUPERIOR RATING in competition with other high school bands in the state. That was the first time this has happened, and it happened because of dedication on the part of Jeff Morse and hard work on the part of the band.

STUDENTS ON-THE-GO

The school day starts at 8:00 A.M. and ends at 2:40 P.M. It runs Monday through Friday. But the students keep on going. They work at being Big Brothers in the Big Brave program. They help manage the teams; walk for the March of Dimes, plant winter grass and entertain at the Children's Christmas Party. They are students on the go.

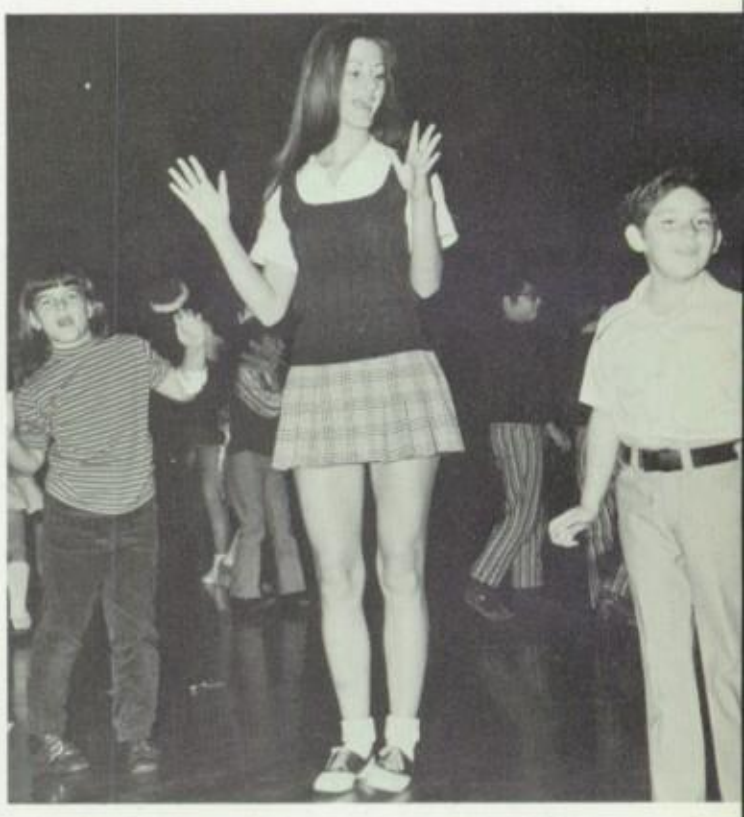
CHRISTMAS PARTY

The Student Council sponsered a Christmas party for the Catholic children in the area, grades one through three.

There was a pinata with the usual wild scramble; and a everybody-join hokey-pokey dance, and Santa (Dominic Palumbo) showed up too.



HOMECOMING PREP

Somehow or other the thing gets done every year. Preparation for homecoming always looks Helter-Skelter, but beneath the confusion there must be a guiding hand. This year that hand belonged to Mrs. Giltner, who got it all together.

CHOCOLATE DRIVE

Scholarships don't grow on trees; at St. Mary's they come in Chocolate Boxes. But they don't come out until the student body sells a lot of it. This year's Freshman girl's Homeroom, #9 sold their quota in four days. The rest of us took a little longer.

AROUND CAMPUS

The campus is larger than a classroom — and all learning is not in a lecture. So from time to time, during the year visiting groups performed for the student body. And sometimes the students did it for themselves.

ENGLISH

CHORAL

If you page through yearbooks from many years ago, you discover that there was a time when Saint Mary's actually had a Glee Club. And it was a good one. But it died. Now it has been resurrected. And Father Forrest deserves the credit for it's new life. Beginnings are hard, but, in time, he may bring it into its former glory.

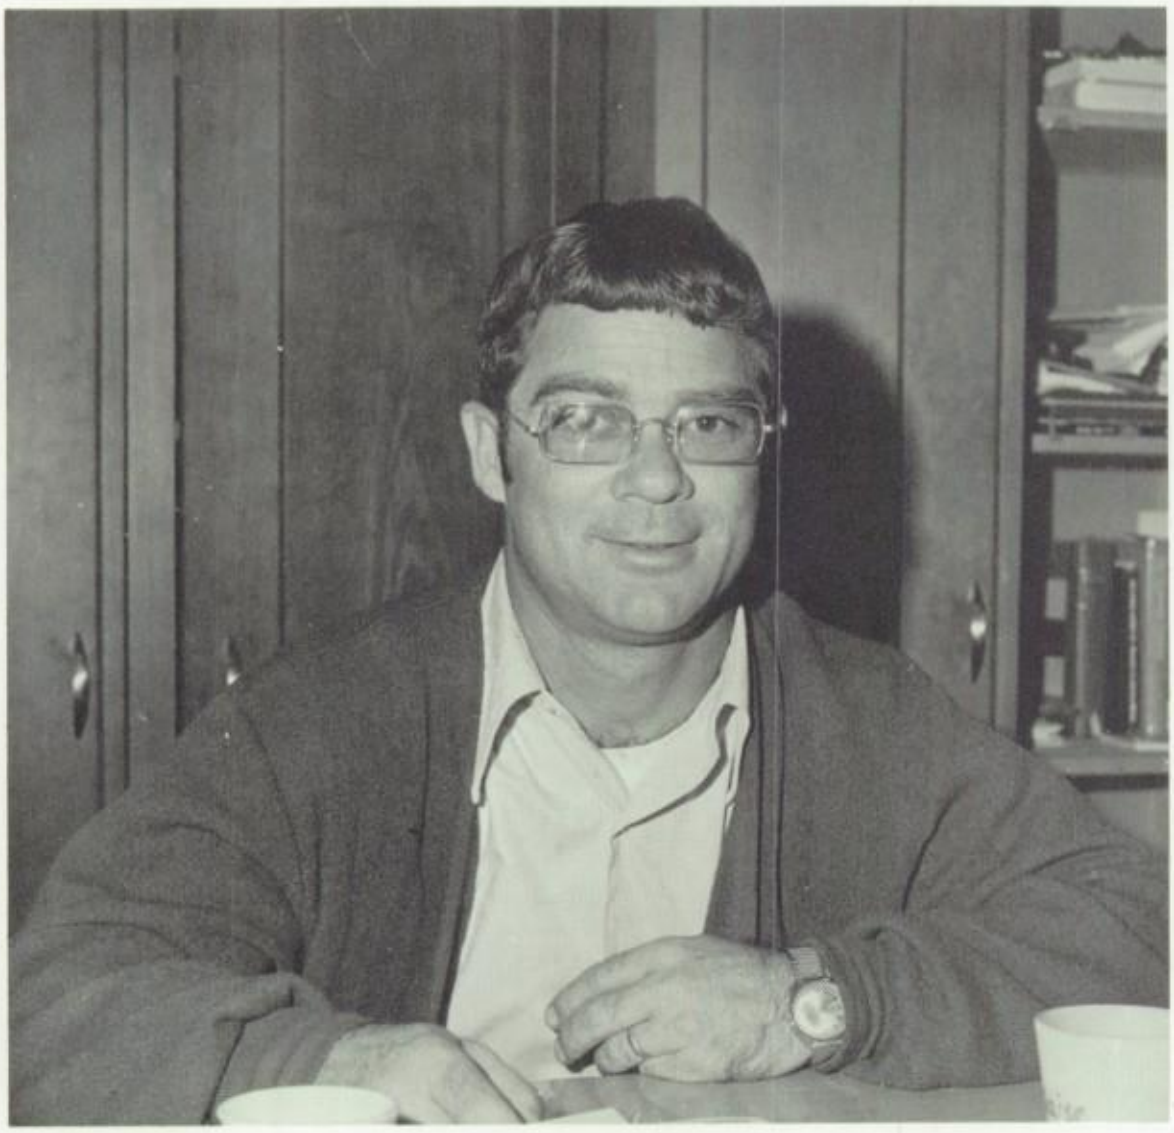
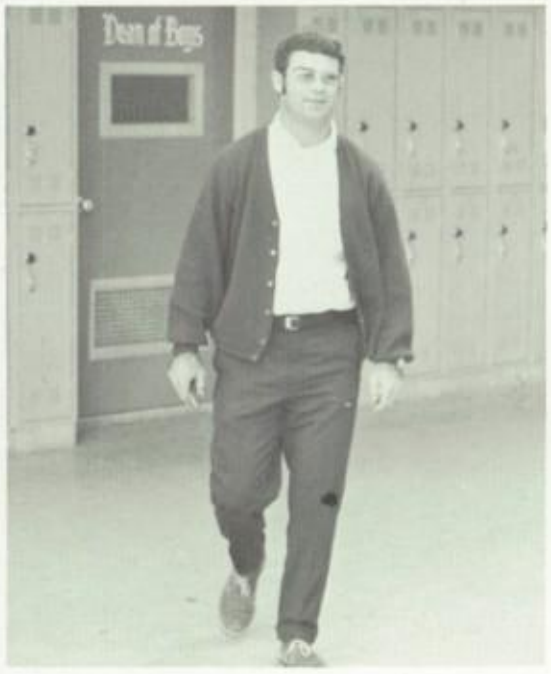
Father Lester Mitchell became principal of Saint Mary's this year. It was not totally new territory for him. These corridors have felt his tread for the past six years. He was vice-principal for the past three years. But even so, being pilot is different from being co-pilot. He grasped the controls with a sure hand and during his first year things moved forward without a hitch.

FR. LESTER—NEW PRINCIPAL

DEAN OF GIRLS

How would you like to check 300 hemlines a day? Talk about a kink in the neck. But that is only part of the job of the Dean of Girls, Miss Mary Agnes Echenique. Her office is a necessary, but not an enviable one, and she fills it with a constancy and a general good humor that never fails.





DEAN OF BOYS

Mr. Koenigs is not a pal or a buddy. He's a Dean. A Dean that is a pal is as mythical as a minotaur. But he'll try to help any boy that needs it. He only hurts when it helps. And he thinks that just a spark of good will is enough to work with.

SEASON RECORD

This time around, the football season was a real nail-biter. If the fans left the stands on Friday night with the shakes, it was understandable. Only two out of the ten games had the Knights comfortably out in front all the way. And in one of those games, against Prescott the opposition put on an explosive spurt that sent a shiver through the green and white crowd. The team, however, was poised through it all and the coaches kept a cool head.

Most of the scores were low. The Knights had trouble getting outside most of the time. The passing attack was usually a chancey thing. Mostly, it was a matter of grinding it out, up the center, and off tackle, picking up the first on the third, all the way to the goal line.

The PAT was partically automatic and it saved the game several times. It most obviously did this in the extraordinary Apollo game. That game was played in a hurricane—literally. The belated weather report advised that a tail-end of a hurricane had swept over this area on that soggy Friday night. The game was on Apollo's field. The wind-blown rain did not let up once during the game. Much of the field was under shoe-top water. Kicks went straight up and came down. The stands emptied by third quarter, but we took it in spite of all.

The nail biting continued right down to the last game. The Knights went into the Brophy game with 8 and 1. Brophy won in a hard fought game and went on to Division playoffs. All in all, it was a good season, and a trophy in the case of Skyline Coach of the Year, Pat Lavin.

VARSITY BASKETBALL

At long last, the S.M. court has become the land of the stalking giants. A mere six-footer would get a kink in his neck if he tried to look our players in the eye. This has paid off in Hoopsville. Our team has racked up a fantastic season record of 19 wins, 3 losses. We were ranked second in the state at the beginning of the season and wound up as first in the Skyline Division, in the playoffs, to no ones surprise. From now on, when people talk of the Glorious Saint Mary's Knights, the people they are talking to will have to ask, "You mean football or basketball?"

There are always those on the merry-go-round who will strive to out-reach their grasp. They are on the Saint Mary's Go-Round too. They are the winners; the ones who come 'round with the brass ring.

KNIGHT OF THE YEAR
STEVE CUSTER

You can say it the long way round, in some sort of officialese; or you can say it short, as in the slogan, "Pro Domo, Deo et Patria." But it only comes to life in the finished product—a certain kind of student.

The "Knight of the Year" award was instituted to point out such a student, one who exemplifies the goals of a Saint Mary's education. This year Steve Custer was named Knight of the Year.

The title "Lady" has a history that stretches way back to when knighthood was in flower. It has implied many things-all good; things like refinement, magnaminity, sensitivity. Today it would be another way of saying, "She's nice!"

This year Agnes Kevane received the "Mother Brunner Award." She is the Saint Mary's Lady of the Year.

Valedictorian

Agnes Kevane

Agnes Kevane, having maintained the highest grade average all four years at St. Mary's is the Valedictorian of the Class of '73. Agnes has been a cheerleader since freshman year and was the captain of this year's squad. She was also a member of the Student Council this year.

Salutatorian

Rose Marie Adams

Rose earned a letter for her talented contributions as a flute player and treasurer in the band. This and her participation in Girl's League show that her accomplishments are not limited to scholastic achievement.

Without a breeze...leaves would have no life
Without a sun...flowers would never grow
Without the trees...birds would have no home

Nature has been good to us. She has blessed America with the natural resources so necessary to make a country great.

Over the years, we have converted these natural resources from unusable raw materials to industrial products unmatched anywhere on earth. From a simple light bulb to spacecraft capable of landing men on the moon, we have matched our natural resources with the resources of technology to achieve the heights of scientific accomplishments.

Along the way to success, we have overlooked the mother who spawned these achievements. To provide steel to build cities, we have stripped our earth of coal and dumped the residue in our lakes and rivers. Trees that provide us with oxygen have been leveled to build homes in the suburbs, creating urban sprawl. To reach our cities, we have lined our countrysides with concrete to accommodate our nation's greatest polluter: the internal combustion engine.

We are all members of a society that demands throwaway bottles, a second auto, and electricity for our homes. We must all share the blame for America's environmental problems.

If the leaves are to have life, if our flowers are to grow, and if the birds are to have a home, today's youth must also accept the challenge with constructive effort. Your actions today will determine the course of our nation.

America can't wait for the next generation. By then it could be too late.

Hi Jackie,
I have so much to say it would take 10 pages, but mostly I want to thank you for becoming one of my very very close friends. You're so understanding and our talks and likeness, and Jim have made this year even better. Thanks for all your confidence and pushing to victory in more than one area. Stay close and stay sweet because I love you so much.

As always
Carma
